

Calvin (Cal) Webb III

Work Style

I enjoy working with people. Specifically, I look forward to learning from and with our clients as we mutually address key areas for the client. People would typically describe me as energetic, strategic, and fast-paced.

What attracted you to Gradient?

I was attracted by the experience of learning from industry experts as well as serving an important base in our culture - governments, non-profits, and higher education entities. All three of these industry segments greatly impact our world.

Experience

I have over seven years of business risk management, controls & compliance, and business intelligence experience. Prior to Gradient, I worked at Deloitte & Touche in their Dallas office. I hold a Certified Fraud Examiner (CFE) designation from the ACFE.

Education

I graduated with a BBA and Master of Accountancy from Baylor University in Waco, TX in 2005. I also completed a Certificate of Graduate Studies from Dallas Theological Seminary. Finally, I am working towards a Certificate in Biblical Counseling at the Christian Counseling and Education Foundation (CCEF.org).
